

CHERRY SELF WAX

SELF-DRYING WAX

Description:

High performance scented wax. Quickly breaks the water layer and allows water drops to easily slip away. Eliminates the marks left by water drops in summer.

Directions for use:

Dosage: use a Dosatron injector and set it to 0.6%.

In automatic systems fitted with a dosing pump, it is preferable to use the product undiluted and set the dosage to 10 g of product per car, depending on the system and car wash's conditions of use (speed, chain, type of system - tunnel or free-standing, temperatures).

Warnings:

To handle the product follow the advice on the safety data sheet.

Technical Features:

appearance and colour: slightly amber-coloured

odour: characteristic

ph: 4.76

flash point:

relative density: 0.9890 g/cm³

solubility in water: soluble

lipid solubility: partially soluble
